WADI AL HADA RESIDENTIAL COMPOUND, RIYADH

FEMCO is a multidisciplinary one of the leading EPC Saudi Contractors, with being considered as an industry leader in Infrastructure, District Cooling Plants, Buildings, Water & Power, Industrial Plants and other related construction facilities, as received many prestigious contracts which were successfully completed all over the Kingdom, with more than 25 years of experience.

Wadi Al Hada is a premium, ultra-luxury western expatriate residential compound that aims to provide a 5-star resort comfort and luxury in the very homes of its tenants. The nature of the land and the award-winning design are a unique combination not only in KSA but also in the entire GCC. Consisting of 549 units ranging from 1-bedroom apartments to 5-bedroom villas, Wadi Al Hada exists on 208,000 square meters of land in the Wadi Hanifah region of Riyadh.

Featured Projects

DGDA CORPORATE CAMPUS BUILDING, RIYADH

FEMCO confirms that the design of the new office building meets the highest international construction and designing standards and considered the modern urban developments in Saudi Arabia, Najdi style and the overall landscape of the area.

The self-sustaining DGDA office buildings consists of 10,000 square meters of office space for 1,200 staff, completely designed and built with modular steel technologies within a record 6 months. The project consists of high-end consultant office spaces and a luxury wing for the client. The scope includes a fully sustaining utility compound and furnishing.

Featured Projects

ENVIRONMENTAL SAFETY AND CONTROL DEPARTMENT, YANBU

Through its rich resources coupled with the financial strength, effective operational system, extensive experience in the field of construction and engineering as well as the high quality of technical and managerial staff, FEMCO recognizes any challenge posed by new projects regardless of the size or complexity of the project with its commitment to competitive prices and compliance to all quality standards.

FEMCO was awarded to construct and provide a complete and functional building that comprises of (1 No.) Environmental Safety and Control Department Building, (1 No.) Pump Room and ancillary works at Madinat Yanbu Al-Sinaiyah (MYAS) for Royal Commission for Jubail and Yanbu. Furniture, fixtures and equipment required to provide a complete operable and functional facility is also included in the scope of works.

Featured Projects

IMAM ABDULRAHMAN BIN FAISAL UNV. MAIN GATE, DAMMAM

A well-documented "Construction Safety and Loss Prevention Plan" is prepared by FEMCO which is implemented at all project sites with management's commitment to maintain a high standard of protection for all company employees and also those of our sub-contractors and clients.

The new Main Gate was aimed to be identical to the first two in a few of ways besides the general shape and size. It's built by FEMCO, the curved design is functional as well as unique. In many ways, it's a continuation of the original campus project.

Featured Projects

RENOVATION OF 500 BED KING FAHAD HOSPITAL, AL AHSA

FEMCO will continually strive to enhance this Plan and Standards in all phases of construction from initial planning through overall construction, including final commissioning and start-up operations. FEMCO employees are charged with responsibility of providing and maintaining the highest degree of "Safety & Health" performances and protection of environment and safety of others effected by our work.

FEMCO is excited to announce the completion of its hospital renovation project which consists of modern upgrades to the emergency room to improve patient flow and access to staff, renovated nursing stations to provide easier access to patients and patient rooms. The renovations are not only beautiful, but will also allow Hospital to provide a better patient experience with dignity and privacy in mind. FEMCO aims to be the destination of choice for public and private healthcare needs and construction solutions.

Featured Projects

RENOVATION OF 200 BED QATIF CENTRAL HOSPITAL, QATIF

FEMCO has also been recognized for its reliability, flexibility and strong execution track-record, as all the projects undertaken by FEMCO were executed with high quality and expert management and a workforce dedicated to their work.

You hear it all the time from friends and family: living in a renovation zone is difficult. The dust, the mess, the need to improvise to complete normal daily tasks; it's a constant struggle. Now think of running a hospital during a renovation. The list of factors to consider and risks to mitigate grows exponentially. From sealing off construction zones, to creating negative air pressure to ensure air quality, to rerouting foot traffic to ensure safety – the tasks are tedious and there is very little room for error. FEMCO is proud to announce the completion of Replacement and Development of Qatif Central Hospital.

Featured Projects

RENOVATION OF 300 BED JUBAIL GENERAL HOSPITAL, JUBAIL

FEMCO aims to meet customers' requirements by having continuous improvement on its technical departments and taking advantage of today's technology and manufacturing techniques in comply with the latest industrial and sectoral applications. Innovative solutions are one of FEMCO's goal for sustainable development and to show its difference in the market.

The project, which began in February 2014, included the renovation of 16,000 square meter of the existing hospital space and included a variety of upgrades. FEMCO has completed modern upgrades to the emergency room to improve patient flow and access to staff, renovated nursing stations to provide easier access to patients and patient rooms, cosmetic upgrades including lighting, ceilings and paint and all electro-mechanical works.

Featured Projects

FEMCO HEADQUARTER BUILDING, DAMMAM

As companies mature, so to do their offices. Things get more polished, more professional, more mature. FEMCO offers an excellent example. The company, which celebrated the twenty-five anniversary of its amazing past, recently moved its 100 over employees from a one-story office at FEMCO's former HQ in Sports City, Khobar, into a refurbished building not far away.
